Heritage Category:										
	Scheduling									
List Entry No :	1015319									
County:										
District: Northumberland										
Parish: Alwinton										

Each official record of a scheduled monument contains a map. New entries on the schedule from 1988 onwards include a digitally created map which forms part of the official record. For entries created in the years up to and including 1987 a hand-drawn map forms part of the official record. The map here has been translated from the official map and that process may have introduced inaccuracies. Copies of maps that form part of the official record can be obtained from Historic England.

This map was delivered electronically and when printed may not be to scale and may be subject to distortions. All maps and grid references are for identification purposes only and must be read in conjunction with other information in the record.

List Entry NGR:	NT 84884 15321
Map Scale:	1:10000
Print Date:	1 May 2024

This is an A4 sized map and should be printed full size at A4 with no page scaling set.

Name: Round cairn west of Windy Gyle, 680m WNW of Russell's Cairn
