

This is an A4 sized map and should be printed full size at A4 with no page scaling set.

Name: Northern part of Rimington lead mines, part of a medieval open field system and three limestone clamp kilns 120m south east of Hollins

Heritage Category:

Scheduling

List Entry No :

1020975

County: Lancashire

District: Ribble Valley

Parish: Rimington

Each official record of a scheduled monument contains a map. New entries on the schedule from 1988 onwards include a digitally created map which forms part of the official record. For entries created in the years up to and including 1987 a hand-drawn map forms part of the official record. The map here has been translated from the official map and that process may have introduced inaccuracies. Copies of maps that form part of the official record can be obtained from Historic England.

This map was delivered electronically and when printed may not be to scale and may be subject to distortions. All maps and grid references are for identification purposes only and must be read in conjunction with other information in the record.
