	Each official record of a scheduled monument contains
	a map. New entries on the schedule from 1988 onwards include a digitally created map which forms part of the
	official record. For entries created in the years up to and
	including 1987 a hand-drawn map forms part of the official record. The map here has been translated from
	the official map and that process may have introduced
$\frac{1}{2}$ $\frac{1}$	inaccuracies. Copies of maps that form part of the official record can be obtained from Historic England.
Cam sem	This map was delivered electronically and when printed may not be to scale and may be subject to distortions.
