

This is an A4 sized map and should be printed full size at A4 with no page scaling set.

Name: Southern pair of four round barrows known as Three Howes, 765m north east of Toad Hole

Heritage Category:

Scheduling

**List Entry No:** 

1019975

County: North Yorkshire

District: Ryedale

Parish: Bransdale

Each official record of a scheduled monument contains a map. New entries on the schedule from 1988 onwards include a digitally created map which forms part of the official record. For entries created in the years up to and including 1987 a hand-drawn map forms part of the official record. The map here has been translated from the official map and that process may have introduced inaccuracies. Copies of maps that form part of the official record can be obtained from Historic England.

This map was delivered electronically and when printed may not be to scale and may be subject to distortions. All maps and grid references are for identification purposes only and must be read in conjunction with other information in the record.

**List Entry NGR:** SE 63215 98186
